Gordon, Senator Roessler's office (Jennifer) just called to ask that your bill on this subject (05-4490) be drafted for her as a separate bill (it is also part of the package 05-4445)--she would like it this afternoon, if possible.

Thanks very much.

4 46.23 (3) (ed) and 48.981 (7) (dm) of the statutes; **relating to:** the
5 confidentiality of information entered into the statewide automated child
6 welfare information system.

Analysis by the Legislative Reference Bureau

~~*Statewide automated child welfare information system confidentiality*~~

Under current law, information received by the Department of Health and Family Services (DHFS), a county department of human services or social services, or a licensed child welfare agency (collectively "agency") about an individual who is in the care or legal custody of the agency is confidential and may not be disclosed, except under certain exceptions. Similarly, under current law, treatment records concerning an individual who is receiving or who has received services for mental illness, developmental disabilities, alcoholism, or drug dependence that are maintained by DHFS, a county department of community programs or developmental disabilities services, or a treatment facility are confidential and may be released without the informed consent of the individual who is the subject of the record (subject individual) only under certain circumstances.

BILL

Current law permits an agency to enter information received about an individual in its care or legal custody, and a person maintaining treatment records to enter information concerning a subject individual, into the statewide automated child welfare information system (generally referred to as "WISACWIS"). Current law also permits DHFS; the Department of Corrections (DOC); a county department of human services, social services, community programs, or developmental disabilities services; or any other organization that has entered into an information sharing and access agreement with DHFS, DOC, or a county department and that has been approved for access to WISACWIS by DHFS (organization) to have access to information concerning a client under the Children's Code, the Juvenile Justice Code, or the Mental Health Act that is maintained on WISACWIS, if necessary to enable DHFS, DOC, the county department, or organization to perform its duties under the Children's Code, the Juvenile Justice Code, or the Mental Health Act or to coordinate the delivery of services under the Children's Code, the Juvenile Justice Code, or the Mental Health Act to a client. Finally, under current law, before an agency may enter information about an individual into WISACWIS, the agency must notify the individual that the information may be disclosed as provided under current law.

This bill permits an agency to enter the content of any record kept or information received by the agency into WISACWIS regardless of whether the record or information is about an individual in the care or legal custody of the agency. The bill also eliminates access to information that is maintained in WISACWIS by DOC or by a county department of community programs or developmental disabilities services, unless DOC or such a county department has entered into an information sharing and access agreement with DHFS or a county department of human services or social services and has been approved by DHFS for access to WISACWIS. The bill, however, permits access by a county department of human services or social services, DHFS, or an organization to information maintained in WISACWIS regardless of whether that information concerns a client. Finally, the bill eliminates the requirement that an individual be notified before information about the individual is entered into WISACWIS.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
